T751i

UNIVERSAL - WIFI

WIFI Made Easy & Affordable

The T701i has defined what a WIFI thermostat can be. Simple, affordable, and exclusively for the professional trade. The T751i provides these same attributes to the heat pump market. This model is simple to install, simple to operate and simple to sell. "Programming is optional, WIFI is optional, but comfort is guaranteed."

Scheduling Made Simple

Using a schedule saves time and money while keeping your home comfortable. However, in today's world many people do not fit into the conventional 5/1/1 routine. With the PRO1 Connect app customizing your schedule is easier than ever before.
